Total cost of the six-year programme

about Rs 35-38 lakh in university charges across six years - tuition, hostel and mandatory fees. Food, flights and personal spending add a further Rs 4-19 lakh depending on how you live

NOTES

Note: Tuition is set in US dollars, so the rupee column moves with the exchange rate - converted here at USD 1 = Rs 90, a rate that has swung between Rs 90 and Rs 94 in recent years. Fees are paid per semester directly to the university. Figures are sourced from the university's own published rates, linked below; several agent websites quote totals as low as Rs 25 lakh, which does not reconcile with what the university charges.
